# A Learning Network

- Site visits
- Regional networking events
- Tele-seminars
- Mentoring program
- Leadership practices database

# State Partnerships

- Memoranda of Agreement with CO, MA, TN, TX, and VA
  - Coordinate state and federal programs
  - Facilitate joint participation
  - Implement incentives, such as low priority for inspections, expedited permitting, and reduced reporting

# Reductions in Energy Use\*

\*Based on data received from 73 members

# Reductions in Solid Waste\*

\*Based on data received from 86 members

# Increases in Preserved/Restored Habitat\*

\*Based on data received from 10 members

# Business Value for Members

- Recognition through increased brand value
- Low inspection priority
- More cooperative relationship with increased access to regulators
- Flexibility and reduced transaction costs
  - Final PT rule
  - Flexible air permits
  - Reduced reporting
  - Increased administrative flexibility

# Program Goals

- Increase environmental value
- Enhance the business value
- Increase program membership
- Expand ownership of the program

# Increase Environmental Value

- Improve the ability to measure performance
- Build a learning community that facilitates performance
- Encourage innovative approaches and sharing best practices
- Improve management systems

# Enhance the Business Value

- Implement regulatory and policy changes
- Promote dialogue among government, business and communities
- Continue to increase the “brand value”
- Strengthen networks and opportunities for sharing information

# Increase Program Membership

- Maintain at least a 25 percent annual growth rate
- Work to build capacity for new members
- Engage environmental leaders in the government and nonprofit sectors
- Increase opportunities for corporate commitments

# Expand Ownership of the Program

- Engage nongovernmental organizations that stress partnerships
- Strengthen and expand the Performance Track Network
- Continue to build linkages with state programs
